

NOTICE OF OPENING OF AN INTERNATIONAL COMPETITION FOR THE RECRUITMENT OF A DOCTORATE UNDER THE DECREE-LAW No. 57/2016, OF AUGUST 29, WITH THE AMENDMENTS INTRODUCED BY LAW 57/2017, OF 19 JULY AND COMPLEMENTARY LEGISLATION

Public Notice Number ISLANDS_2 /IST-ID

1. The Executive Board of the Association of Instituto Superior Técnico for Research and Development (IST-ID) took a decision to open an international selection competition for one doctorate position for the exercise of activities of scientific research in the scientific area(s) of Earth Sciences and environmental sciences in the form of an employment contract under an unspecified fixed-term work contract under the “Código do Trabalho” (Labor Code), aiming at the development of technical and scientific support activities under the ISLANDS Atlantic Project, including the preparation of technical content, the organisation of capacity-building activities, the technical follow-up of pilot projects in the areas of end-of-life vehicles (ELVs) and waste electrical and electronic equipment (WEEE), support for life cycle assessment studies in the tourism sector, the monitoring of project implementation, and the preparation of technical and scientific reports in Cabo Verde and São Tomé and Príncipe, under the project Implementing Sustainable Low and Non-Chemical Development in Small Island Developing States (ISLANDS), funded by the Global Environment Facility (GEF).

The ISLANDS project seeks to address the sound management of chemicals and waste in Least Developed Countries (LDCs) and Small Island Developing States (SIDS). This ISLANDS programme covers four (4) geographical regions including the Caribbean, Indian Ocean, Pacific Islands, Atlantic Ocean Islands and is being implemented by the United Nations Environment Programme (UNEP), The United Nations Development Programme (UNDP), The Food and Agriculture Organisation of the United Nations (FAO) and the Inter-American Development Bank (IDB). The IST-ID is currently executing the Atlantic Child Project (GEF 10848) which involves three (3) countries (Cape Verde, Guinea Bissau, and Sao Tome and Principe).

The overarching goal of the ISLANDS programme is the sound management of chemicals and wastes in SIDS. The third component of the programme will support the achievement of this goal by promoting the Safe Management of Products (SMP) entering SIDS and Closing Material and Product Loops for Products.

Under the guidance of IST-ID and in close collaboration with the national working groups (NWGs) of the project countries, the Consultant will undertake the following:

1. Strengthened capacity for the implementation of Multilateral Environmental Agreements (MEAs). Under this activity, the Consultant will support the implementation of the regional Training Needs Assessment (TNA) recommendations through the preparation and delivery of a regional Training of Trainers (ToT) programme and the development of training and awareness materials.

1.1. The Consultant will coordinate the finalisation and implementation of the regional ToT programme on chemicals and waste-related MEAs.

1.2. The Consultant will coordinate the engagement of national trainers in the participating countries and support the organisation and delivery of the regional ToT workshop.

1.3. The Consultant will coordinate the preparation, review and finalisation of the training materials, including presentations, facilitator notes, knowledge capsules and supporting documentation.

1.4. The Consultant will support the development of awareness and knowledge-sharing materials to facilitate the replication of the training at national level.

1.5. The Consultant will coordinate the preparation of technical reports documenting the implementation and results of the training activities.

2. Supporting the Environmentally Sound Management of WEEE in Atlantic SIDS

Building upon the completed technical and economic assessment of WEEE management systems, the Consultant will support the design of implementation tools and regional coordination mechanisms for environmentally sound WEEE management.

2.1. The Consultant will coordinate the finalisation and validation of the regional assessment report on the technical and economic feasibility of environmentally sound WEEE management.

2.2. The Consultant will coordinate the development and validation of the reverse supply chain (RSC) schemes for WEEE management in the project countries, incorporating comments from national stakeholders.

2.3. The Consultant will coordinate the preparation of Best Available Techniques (BAT) and Best Environmental Practices (BEP) guidelines for WEEE management adapted to the Atlantic SIDS context.

2.4. The Consultant will coordinate the development of the regional implementation roadmap for environmentally sound WEEE management, including institutional, technical and financial recommendations.

2.5. The Consultant will support the preparation and organisation of technical validation workshops and stakeholder consultations required for the finalisation of the project deliverables.

3. Strengthened capacity to manage ELVs in Cabo Verde and São Tomé and Príncipe

Building upon the completed technical and economic assessment of ELV management systems, the Consultant will support the development of implementation tools and national planning instruments.

3.1. The Consultant will coordinate the finalisation and validation of the national assessment reports on the technical and economic feasibility of environmentally sound ELV management.

3.2. The Consultant will coordinate the development and validation of the reverse supply chain (RSC) schemes for ELV management.

3.3. The Consultant will coordinate the preparation of Best Available Techniques (BAT) and Best Environmental Practices (BEP) guidelines for ELV management.

3.4. The Consultant will coordinate the development and finalisation of the national implementation roadmap for environmentally sound ELV management in São Tomé and Príncipe.

3.5. The Consultant will support the organisation of stakeholder consultations and technical workshops required for validation and implementation planning.

3.6. The Consultant will contribute to the preparation of the technical reports and supporting documentation associated with the above activities.

4. Establishment/improvement of lifecycle management mechanisms for priority wastes and recyclables in the Atlantic SIDS.

Under this activity, a comprehensive life cycle assessment on priority waste streams in Cabo Verde and São Tomé and Príncipe tourism sector will be developed.

4.1. The Consultant will coordinate the development of a partnership with at least two hotels in Cabo Verde and São Tomé and Príncipe willing to allow their processes to be analysed for the purpose of the lifecycle assessment.

4.2. The Consultant will coordinate the life cycle assessment of the identified priority waste streams identified for the Cabo Verde and São Tomé and Príncipe tourism sector considering the value chain of the hotels with whom a partnership was developed.

4.3. The Consultant is expected to contribute to the deliverables of written reports

Travel may be required for the workshops as well as any national stakeholder engagement/information gathering initiatives as determined by the consultant's approach to work. The travel and visa requirements will be provided by IST-ID .

2. Applicable law:

Decree-Law No. 57/2016, of August 29, the regulations for hiring doctorates to stimulate scientific and technological employment in all areas of knowledge (RJEC), with the amendments introduced by Law No. 57 / 2017, dated July 19, also taking into account the provisions of Regulatory Decree No. 11-A / 2017, of December 29.

“Código do Trabalho” (Labor Code), approved by Law No. 7/2009, of February 12, in its current wording.

3. In compliance with article 13 of RJEC, the jury of the competition is composed as follows:

Leonardo Azevedo, Full Professor, President

Maria João Pereira, Full Professor DER/IST, member

Helga Marise Jordão Ferreira, Assistant Professor DER/IST, member.

Joana Lobo Antunes, Assistant Professor DER/IST, Substitute Member

4. The place of work is located at CERENA, Instituto Superior Técnico, Alameda Campus, Lisboa, Portugal.

5 In compliance with the provisions of the Regulatory Decree No. 11-A / 2017, of December 29, this tender is open for the remuneration level (NR) 33 of the single remuneration table (TRU) which corresponds to a monthly remuneration of 2408,11 Euros.

6.

6.1 Decree Law no. 57/2016, of August 29, which approved the regulations for hiring doctorates to stimulate scientific and technological employment in all areas of knowledge (RJEC), is an enabling norm for this international selection competition.

6.2 The opening of this competition is intended for the selection of a doctorate's place for the exercise of scientific research activity under an unspecified fixed-term work contract under the “Código do Trabalho” (Labor Code) approved by Law No. 7/2009, of February 12, in its current wording, being the basis of contracting the execution of a service determined, precisely defined and non-durable, being the contracting necessarily financed regardless of its provenance.

6.3 The maximum duration of the unspecified fixed-term work contract is the duration of the specific task of the project supporting it, and which is, expectedly, 3 years.

6.4 Termination of the financing, termination of the project or completion of the tasks that are the subject of this competition shall determine the expiration of the contract that will operate with the communication referred to in article 345 (1) of the “Código do Trabalho”(Labor Code), meaning that the employer shall notify the termination of the contract to the employee, at least seven, 30 or 60 days in advance, according to whether the contract lasted up to six months, six months to two years, or per longer period."

7. The competition is open for national candidates, foreigners and stateless persons who hold the degree of “Doutor” or hold the recognition of that degree under the terms of the Decree-Law n.º 66/2018, of August 16, in a branch of knowledge or specialty that covers the scientific areas of Earth

Sciences and Environment or related scientific area, and are also holders of a scientific and professional curriculum that reveals an adequate profile to the activity to be developed.

8. Formalization of applications:

8.1 Applications are formalized by means of an application form, made available at <http://ist-id.pt/concursos/emprego-cientifico-projetos/> electronic address, addressed to the President of Instituto Superior Técnico Association for Research and Development (IST-ID), stating the identification of this notice, full name, affiliation, number and date of identity card, Citizen Card, or number identification number, date and place of birth, marital status, profession, residence and contact address, including e-mail address and telephone contact.

The recognition of the “Doutor” degree should be obtained by the date of the act of contracting. In the application form, the candidate must indicate his / her consent so that the communications and notifications in the context of this hiring procedure can take place by electronic mail, to the electronic address indicated in that application form.

8.2 The application shall be accompanied by documents proving the conditions laid down in point 7 for admission to this invitation to tender, in particular:

- a) Copy of certificate or diploma;
- b) “Tese de doutoramento” or equivalent document(s) that determined the award of the academic degree of “Doutor”;
- c) Detailed curriculum vitae, structured in accordance with the items in points 12 and 14, indicating the works, and adding a copy of them, that the candidate considers most relevant to each of the items in points 12 and 14;
- d) Scientific project, focusing on capacity-building activities, BAT/BEP implementation guidelines and implementation roadmaps for the environmentally sound management of waste electrical and electronic equipment (WEEE) and end-of-life vehicles (ELVs) in Cabo Verde, São Tomé and Príncipe and Guinea-Bissau;
- e) Other documents that the candidate justifies to be relevant to the analysis of his/her application.

8.3 Applicants submit the documents referred to in 8.1 and 8.2 in PDF format at the electronic address above indicated, issued up to the last day of the tender opening period, which is fixed at 10 working days after publication of this Notice. An applicant may, by reason of the impossibility or technical difficulty of sending any of the documents referred to in 8.1 and 8.2 by e-mail, deliver them on physical support, respecting the above date, by registered mail with acknowledgment of receipt to the address postal service “Av. Rovisco Pais, 1. 1049-003 Lisboa” or by hand at IST-ID Human Resources Division. Not being accepted the justification of the candidate for the delivery of documents only in physical format, the President of the Jury will give a reasonable time to present them also in digital support.

8.4 The application and documents may be submitted in Portuguese or English, although the President of the Jury, and when a member of the Jury is a non-native Portuguese speaker, may request that, within a reasonable time, the candidate translates into English a document previously presented in Portuguese.

9. By decision of the President of IST-ID, candidates who do not comply with the provisions of point 8 are not admitted to the competition. Candidates who do not submit the application using the form or who do not deliver all the documents referred to in points 8.2 (a) to (d) or who present them unreadable, incorrectly completed, or invalid are eliminated. The jury is also entitled to require any candidate, in case of doubt and for the purposes of admission to competition, to present documentary evidence of the declarations in the submitted documents.

10. Approval on absolute merit:

10.1 The Jury will deliberate on its approval or rejection on absolute merit, by a justified vote where no abstentions are admitted.

10.2 A candidate is considered approved on absolute merit when he/she obtains a favorable vote of more than half of the members of the jury.

10.3 Candidates who have a scientific and curricular path relevant to the scientific area(s) of the competition and taking into account their suitability for the additional weighting criteria identified in 14.5 will be approved on absolute merit.

10.4 The unfavorable vote to approval on absolute merit can still be justified by the failure to fulfill the following circumstance:

- a) the Scientific Project prepared by the candidate is shown to be clearly insufficient and misaligned with the scientific area (s), suffering from serious inaccuracies or not supported by previous work of the candidate.

11. According to article 5 of RJEC, the selection is made through the evaluation of the scientific and curricular path of the candidates.

12. The evaluation of the scientific and curricular path focuses on relevance, quality and timeliness:

- a) of the scientific, technological, academic, cultural or artistic production during the last five years and considered more relevant by the candidate;
- b) of the applied or practice-based research activities developed over the last five years and considered as having the greatest impact by the candidate;
- c) of the activities of extension and dissemination of knowledge developed during the last five years, in particular in the context of promoting the culture and scientific practices considered by the candidate to be of greater relevance;
- d) of the activities of science, technology and innovation programs management or of the experience in observing and monitoring the scientific and technological system or higher education, in Portugal or abroad.

13. The period of five years referred to in the preceding paragraph may be increased by the jury, at the request of the candidate, when justified on grounds of suspension of scientific activity for socially protected reasons, namely for reasons of parental leave, prolonged serious illness, and other situations of unavailability for work legally protected.

14. The assessment criteria are set out in this entry, with the option mentioned in point 14.5, with particular emphasis on the curriculum vitae and the contributions considered to be of higher relevance by the candidate in the last 5 years:

14.1. Quality of the scientific, technological, cultural or artistic production, considered more relevant by the candidate, and relevant to the project to be developed, which was given a weighting factor of 70% considering:

(i) Scientific publications: a parameter which takes into account books, chapters of books, articles in scientific journals and international conference proceedings of which the applicant was the author or co-author, considering:

- its nature;
- its impact;
- the scientific / technological level and innovation;
- international collaboration;
- the importance of contributions to the advancement of the current state of knowledge;
- the importance of the works that have been selected by the candidate as most representative, in particular as regards their contribution to the development and evolution of the scientific area for which the competition is open.

ii) Recognition by the international scientific community: a parameter that takes into account:

- prizes from scientific societies;
- coordination and participation in program committees of scientific events;
- invited lectures in scientific meetings or in other institutions;
- participation as a member of competitive admission scientific societies and other similar distinctions.

iii) Coordination and participation in scientific projects: a parameter that takes into account the participation and coordination of scientific projects by the candidate, subject to competitive bidding, considering:

- the territorial scope and its size;
- the technological level and the importance of the contributions;
- innovation and diversity.

iv) Dynamization of scientific activity: a parameter that takes into account the capacity of coordination and leadership of research teams demonstrated by the candidate.

14.2. Activities of applied or practice-based research, considered to be of greatest impact by the candidate, and relevant to the project to be developed, which was given a weighting factor of 10% considering:

(i) Vocational training actions: a parameter which takes into account the participation and coordination of technological training actions aimed at enterprises and the public sector, taking into account their nature, technological intensity and results achieved.

ii) Provision of services and integrated consultancy in the institutional mission: a parameter that takes into account participation in activities involving the business community and the public sector, taking into account the type of participation, size, diversity, technological intensity and innovation.

14.3. Activities of extension and dissemination of knowledge, particularly in the context of the promotion of culture and scientific practices, considered of greater relevance by the candidate, and relevant to the project to be developed, which was given a weighting factor of 15% considering:

i) Publications of scientific and technological outreach: parameter that takes into account the articles in magazines and national conferences and other publications of scientific and technological diffusion, taking into account their professional and social impact.

i) Services to the scientific community and to society: a parameter that takes into account the participation and coordination of scientific and technological dissemination initiatives and taking into account the nature and results achieved by them when carried out towards:

- the scientific community, including the organization of conferences and conferences;
- the media;
- companies and the public sector.

14.4. Contribution to activities related to the management of science, technology and innovation programs, or experience in the observation and monitoring of the scientific and technological system or higher education, in Portugal or abroad, and relevant to the project to be developed, with a weighting factor of 5% considering:

i) Positions in boards of the university, school, or research unit: a parameter that takes into account the nature and the responsibility of the position.

ii) Other positions: parameter that takes into account the exercise of positions in national and international scientific organizations.

14.5. In weighing the evaluation criteria listed in paragraphs 14.1 to 14.4, each jury member may consider the following additional parameters under the following conditions:

- 14.5.1. a relevance and quality of the scientific project proposed in/for capacity-building activities, BAT/BEP implementation guidelines and implementation roadmaps for the environmentally sound management of waste electrical and electronic equipment (WEEE) and end-of-life vehicles (ELVs) in Cabo Verde, São Tomé and Príncipe and Guinea-Bissau;
- 14.5.1.b Experience in environmentally sound management of chemicals and waste management of the scientific area in which the competition is open
- 14.5.1.c Experience in data collection and inventory management and Experience in life cycle assessment.
- 14.5.1.d Experience in conducting stakeholder meetings, technical workshops, validation meetings and desktop reviews.
- 14.5.1.e Demonstrated knowledge of the chemicals and waste management MEAs and previous experience working in the Atlantic region and /or other SIDS (considering the capacity and eligibility to work in the three (3) participating countries)
- 14.5.1.f Fluency in Portuguese and English.

15. The jury may decide to select up to 3 candidates who will be called to hold a session presenting the results of their investigation, following which the jury members should stimulate an open debate on its content and innovative character. This presentation session does not constitute a selection method and is not classified, aiming merely to obtain explanations or clarifications of elements contained in the candidates' curricula.

16. The Jury, when it deems it necessary, may request the candidate to present additional documents proving the candidate's statements, which are relevant to the analysis and classification of his/her application.

17. Classification of candidates

17.1. Each member of the jury assigned a classification to each of the candidates in each evaluation criterion, on a scale of 0 to 100 points, ranking the candidates according to their classification consisting on the sum of the partial classifications assigned in each evaluation criterion, and taking into account the weighting factor given to each parameter.

17.2. Candidates shall be ordered by applying the successive voting method.

17.3. The jury decides by absolute majority, and abstentions are not allowed.

17.4. The final classification of each candidate is the one corresponding to his/her ranking resulting from the application of the method referred to in point 17.2.

18. Minutes of the jury meetings are drawn up, which contain a summary of what has taken place in them, as well as the votes cast by each of the members and their reasons, being available to the candidates whenever requested.

19. The final deliberation of the jury is approved by the President of IST-ID, and it is his responsibility to establish the respective contract.

20. The false statements made by the candidates will be punished according to the law.

21. The list of admitted and excluded candidates as well as the final ranking list advertised on the website of IST-ID, and the applicants will be notified by email with receipt of delivery of the notification.

22. Prior Hearing and Deadline for Final Decision: After being notified, candidates have 10 working days to submit a formal rebuttal. Within the term of 90 days, counted from the deadline for the presentation of the candidacies, the final decisions of the jury are given.

23. This tender is exclusively intended to fill the vacancy(s) indicated and may be terminated until the homologation of the final ranking list of candidates and expiring with the respective occupation of the working position on offer.

24. Non-discrimination and equal access policy: IST-ID actively promotes a policy of non-discrimination and equal access, so that no candidate can be privileged, benefited, disadvantaged or deprived of any right or exemption from any duty owing, in particular, to ancestry, age, sex, sexual orientation, marital status, family status, economic situation, education, social origin or condition, genetic heritage, reduced working capacity, disability, chronic illness, nationality, ethnic origin or race, territory of origin, language, religion, political or ideological beliefs and trade union membership.

25. Under the terms of D.L. No. 29/2001, of February 3, a disabled candidate has a preference when in equal classification, which prevails over any other legal preference. Candidates must declare on the

application form their respective degree of disability, the type of disability and the means of communication / expression to be used in the selection process, under the terms of the aforementioned diploma.
