

IPCEI on Circular Advanced Materials for Clean Tech

Portugal is considering the possibility of engaging in the potential Important Project of Common European Interest on **Circular Advanced Materials for Clean Technologies (IPCEI-CAM)**

This strategic initiative, in collaboration with the European Commission, aims to accelerate innovation and sustainability in European industry. IPCEI-CAM focuses on the **circular economy, promoting the reuse and recycling of advanced materials for clean technologies, reducing dependence on essential raw materials** and strengthening Europe's autonomy and technological leadership.

The Directorate-General for Economic Activities (DGAE), ANI and IAPMEI, I.P. - Agency for Competitiveness and Innovation **invite industries and research, development and innovation institutions** to participate in this national consultation, taking the opportunity to contribute to a transnational project that could transform the sector.

More information regarding IPCEI [HERE](#) and for CAM specifically, please ask DPFC, on the email pre-award@ist-id.pt
